ABOUT

Full stack web developer utilizing 8+ years graphic design leadership experience to build agile mobile and web applications. Recently earned a certificate in full stack development from the University of Oregon, which has enhanced my skills in JavaScript, Node.js, React.js, MySQL and MongoDB, and responsive web design.

SKILLS

Frontend HTML 5 • CSS • JavaScript • jQuery • Bulma • Bootstrap
Backend Node.js • Express.js • MySQL • MongoDB
Other React • Git • GitHub • Adobe Creative Suite • Salesforce

WORK HISTORY

Nxtbook Media | Lancaster, PA
Lead PageRaft Designer | May 2013-Present
- Responsible for navigating the design process from client vision and concept to completion
- Create pages and styles using HTML, CSS, and JavaScript
- Train external partners on how to use the PageRaft CMS
- Decreased project turn times by identifying patterns in styling and codebase, which led to an increase in revenue and productivity
- Manage a small team of PageRaft designers and contractors. Support and train the designers in PageRaft. Review projects to ensure partner standards are being met. Document design standards for all publications.
- Collaborate with partners to translate their printed pieces into digital versions. Partners include Virgin Media, Disney, IEEE, and National Catholic Educational Association (NCEA)

Digital Designer | September 2009-May 2013
- Design publications per partner's branding guidelines utilizing Nxtbook's flipbook technology
- Collaborated with project managers, account executives and clients daily to expedite project changes, approvals and the resolution of any challenges

PROJECTS

Stashbusters   May 2021
github.com/calliebn/stashbusters | nameless-mesa-29731.herokuapp.com/

Role: Project Manager/Developer

- An app that will allow the user to keep track of what is in their yarn stash
- Users fill out a form and a new card is generated for each yarn they create
- The project utilized HTML, CSS, JavaScript, Bulma, APIs, and MySQL

Team Profile Generator   April 2021
github.com/calliebn/team_profile_generator

Role: Developer

- A script used to autogenerate a team profile HTML page
- The user is led through a series of prompts about the people on their team. Once completed, an HTML page is generated with cards that contain each team member's contact info and role
- The project utilized HTML, CSS, JavaScript, Bulma, and Node.js

Carpe Diem

github.com/calliebn/carpe_diem | calliebn.github.io/carpe_diem/

Role: Project Manager/Developer

- A daily to-do list that will allow the user to add items, check off items and sort their to do list.
- Managed a team of developers to ensure the quality of the code and a timely delivery
- The project utilized HTML, CSS, JavaScript, Bulma, and the use of APIs

EDUCATION

2021   University of Oregon | Coding Bootcamp Certificate

                A 24-week intensive program focused on technical programming skills in JavaScript, Node.js, MongoDB, MySQL, React, and Computer Science

2016   Pennsylvania College of Art and Design | HTML 5 and CSS

2016   Pennsylvania College of Art and Design | Design Principles and Typography
